

Interfaculty Graduate Nutrition Program (GNP)

The interfaculty Graduate Nutrition Program (GNP), leading to the MS degree in Nutrition (thesis or non-thesis), draws on the resources of various departments of the faculties of Agricultural and Food Sciences, Medicine, and Health Sciences, and provides opportunities for study and research in the general field of nutrition. The involvement of several faculties in this program provides students with a wide range of choices and enables students to specialize in areas of nutrition such as basic nutrition, community nutrition, clinical nutrition, or nutritional biochemistry. Students can register in this program through any of the participating faculties.

The program is administered by an interfaculty coordinating committee and the graduate committees of the participating faculties.

To be accepted into the program, the student must:

- meet general university requirements for admission to graduate study,
- be recommended by the department concerned.
